(CMS Net) - Information Bulletin #164

April 2006 Change Cycle

The following is a list of changes which were added to the CMS Net System for the April Change Cycle:

<u>Press "Enter" verses the "Find" button</u>: Added the ability to begin searching by pressing the "Enter" key verses the clicking on "Find" button to retrieve results. This functionality has been placed in several areas within the SAR module but not all. You will find this short cut in the following areas:

Search - Service Auth
  > BY PROVIDER > Provider Name> Enter (Find button)
  > BY PROVIDER > Provider ID> Enter (Find Button)
  > BY Client > View SAR > Search Results - Search Client SAR > BY
    PROVIDER > Provider Name > Enter (Find Button)
  > BY Client > View SAR > Search Results - Search Client SAR
  > BY PROVIDER > Provider ID> Enter (Find Button)

Modify/Authorize Tab
  > Paneled Non PMF Provider > Enter (Find Button)
  > Authorized By > Enter (Find Button)
  > Primary Diagnosis > Enter (Find Button)
  > Secondary Diagnosis > Enter (Find Button)
  > Add Services > MEDICAL SUPPLIES > Generic Name> Enter (Find
    Button)
  > Add Services > MEDICAL SUPPLIES > Label Name > Enter (Find Button)

Cancel SAR > Canceled By > Enter (Find Button)

Deny SAR > Denied By > Enter (Find Button)

<u>Denial Reason - Other:</u> Add the ability to enter comments when "Other" is selected for reason for denial. This "Other" reason will also display on the view SAR screen and PIP.

PTR Transmission Report: Corrected the birth date on the PTR transmission report.

PTR Documentation Field: Allow the user to enter three digits in the documentation field. The PTR print layout will display in landscape format versus portrait format to fit on one page.

Medi-Cal Number field: Disabled the Medi-Cal number field.

End Date for restricted medical supplies: Check the restricted medical supply service code end date against the program end date. If the restricted medical supply service code falls **before** the program period end date allow the code to be used. If the medical supply service code falls **after** the program period end date display an error.

Paneled NON PMF Provider Reports: Sort by Name and Specialty

PTR Record Layout: The PTR record layout was corrected to read the Delay Reason code indicator correctly. The problem was transparent to the user unless a Delay Reason code was added for overriding timeliness for late submission of Patient Therapy Records.

Special Instructions: Submit CDC growth chart with dates of heights and weights.

Remove Exclusion: Remove 58, 69, 71, 74, 7K, 8X, 8Y, 9H and OC from the table of Aid Codes to be excluded when calculating a Medi-Cal number field during MEDs Recon and MEDs inquiry.
